AM BRUNO represents current artistic thought, practice and sensibility translated and expanded into book art form. The artists in the group are visual and conceptual practitioners in all media, including painting, photography, video, performance and sculpture.

The themes vary from inquiry into the nature of books/sketchbooks, human body/desire/private life, the value of artifice, writing/image and time.

AM Bruno is an alliance of 24 artists initiated by MA fine art graduates from Central Saint Martins.
